# Jakub Szabo

Junior Backend Developer

jakub.szabo@example.com · +421 900 000 401 · Kosice, Slovakia · github.com/jszabo-dev

## Profile

Junior backend developer with 2 years of experience building REST API services in Java and Spring Boot. Comfortable with SQL databases, Docker and Git workflows. Looking for a junior backend role in a product team.

## Work Experience

**Junior Java Developer, Softline s.r.o., Kosice (2024 - present)**

- Developed REST API endpoints in Java 17 and Spring Boot for a logistics platform.
- Wrote SQL queries and migrations for PostgreSQL and Microsoft SQL Server.
- Packaged services with Docker and used Git with pull requests and code reviews.

**Java Intern, Techwave a.s., Kosice (2023 - 2024)**

- Implemented unit tests with JUnit and fixed bugs in an internal REST API.

## Education

**Bachelor of Science in Applied Informatics**, Technical University of Kosice (2021 - 2024)

## Skills

Java, Spring Boot, REST API, SQL, PostgreSQL, Microsoft SQL Server, Docker, Git, JUnit, Maven

## Languages

Slovak (native), English (B2)
