Filip Bielik

Senior Backend Developer

filip.bielik@example.com · +421 900 000 409 · Bratislava, Slovakia · github.com/fbielik

Profile

Backend developer with 6 years of experience designing Java services and REST APIs. Hands-on experience with Docker and Kubernetes in production, comfortable with CI/CD.

Work Experience

Senior Java Developer, Enterprise Systems a.s., Bratislava (2021 - present)

- Designed REST API services in Java and Spring Boot used by 200 000 users.
- Modelled SQL schemas in PostgreSQL and Microsoft SQL Server and tuned slow queries.
- Deployed services to Kubernetes with Docker and maintained CI/CD pipelines in Jenkins.

Java Developer, Banking Apps s.r.o., Bratislava (2018 - 2021)

- Developed back-end modules and mentored two junior developers.

Education

Master of Science in Computer Science, Comenius University in Bratislava (2016 - 2018)
